Dive for Change!
Dive for Change

Three friends from England have teamed up to embark on a challenging overland-underwater charity expedition to spend 18 months, driving from the UK to New Zealand in the hope of raising 25,000 UKP (250,000LE) for CARE International. As well as driving 65,000km half way round the world, part of their charity fundraising is to dive in as many countries along the route and of course Egypt is no exception with the Red Sea at its doorstep. CARE support a record 870 poverty-fighting projects in 70 countries, reaching more than 45 million people. The team will be visiting a project in Egypt dealing with water management and sanitation, meeting the local communities and seeing for themselves how the money raised improves peoples' quality of life.

The dive centres of Sharm El Sheik led by Seamax Diving Center, with the help of SSDM, are enthusiastically supporting the expedition and are hosting a 'charity dive on the Thistlegorm' where all proceeds will go directly towards the expedition's target. The team have privately funded this unique expedition so all money donated goes directly towards supporting the CARE projects making a real difference to the lives of these people.

Please help us help the team and jump on board! The more divers joining the charity dive, the sooner the team will reach their target. Two days diving and overnight at the Thistlegorm. (depending on weather conditions) Date for your diary is Thursday 20th to Friday 21st Oct and to entice you all on to the boat, there is a special price of only 144,- USD, allowing you to have a fun day with the expedition team diving the Thistlegorm, whilst at the same time diving for change. Contact Gisela at 010 5594332 to secure your place now.

To find out more information about the overland-underwater team and to track their progress, please visit their website at www.overland-underwater.com.
